FOREWORD

New Kent High School is a portal through which we, the hopes and dreams of the states and nations, pass. We do not pass with minds unaltered, however. Here we learn to see beneath the surface, to distinguish the shadings of truth and illusion.

As you turn each page and look at each picture in the 1964 Cavalier, may each reflect for you a happy experience or a sad one, but always a memorable one.

There is a time in every man's education when he arrives at the conviction that envy is ignorance; that imitation is suicide; that he must take himself for better for worse as his portion; . . . The power which resides in him is new in nature, and none but he knows what that is which he can do, nor does he know until he has tried.

Emerson in "Self Reliance"

These words of the American essayist attempt to instill in us a confidence in our own abilities and our own thinking. Your task as you make the transition from the high school classroom to the college halls, the shop, or the home, is not only to seize opportunities to enrich your life and to serve your fellow men, but TO CREATE such opportunities. Your goal must not be adjustment to your environment, but MASTERY of it.

For twelve years you have studied -- acquiring information, accumulating facts, drilling, diagramming, outlining and summarizing. Much of what you have gained will be utilized in the years ahead. Many of the facts, however, will be forgotten, much information will find little application, and you may never diagram a sentence or use a Bunsen burner again. But if, through the fulfillment of your classroom requirements, you have found the satisfaction that comes from a realization of your own ability to recall, to solve, to imagine, to create and to express, and have gained a confidence in yourself that enables you to confront the challenges which your chosen vocation presents, you have received an education. Again from Emerson:

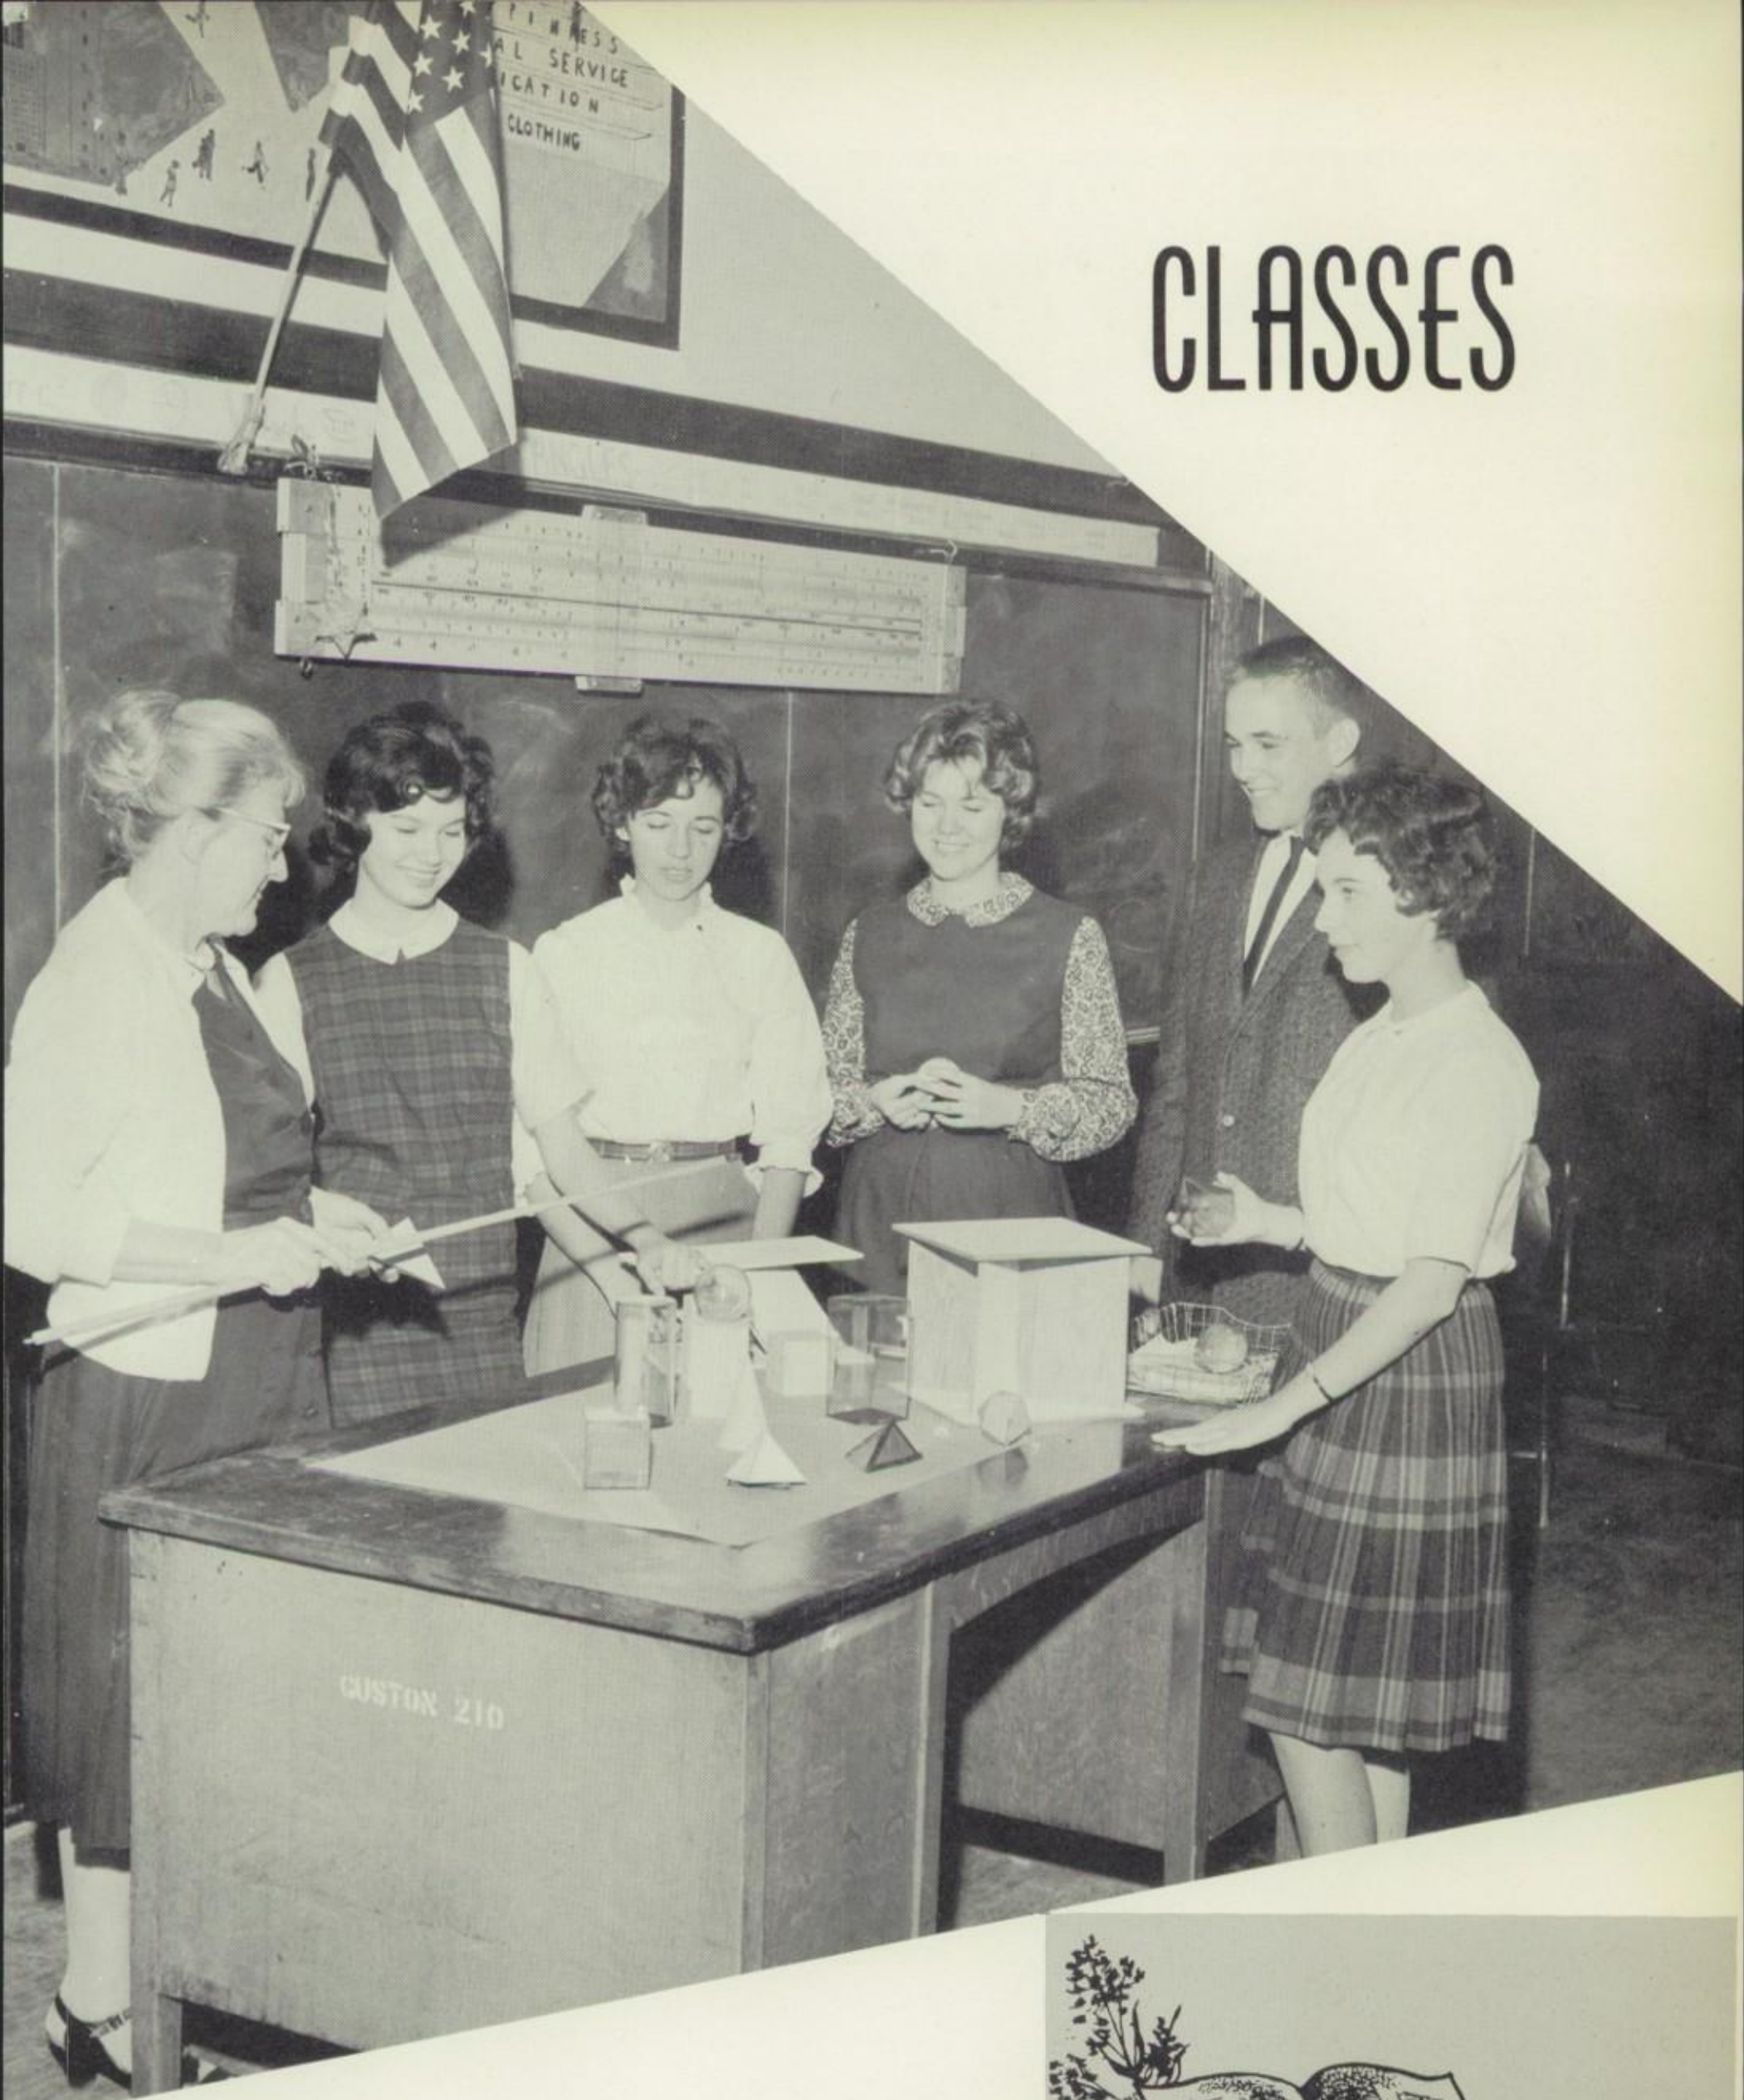

To believe your own thought, to believe that what is true for you in your private heart is true for all men -- that is genius.

HISTORY

Graduation seems a particularly fitting time for us as a class to look back--back to September, 1952, when we first assembled as a "class" of forty-two eager beginners.

Only now do we begin to see that our teachers and our parents have struggled to teach, to guide, to encourage, to discipline, to stimulate, to mold, to praise, to criticize, with but a single purpose--to make us into the kind of citizens that will be a credit and an honor to our school and our community.

Along with our learning of the fundamentals in grade school, we remember with fondness the many class parties and the fun we had preparing for May Day each year. The trips we took to Williamsburg, Jamestown, and Washington will never be forgotten.

As we entered high school it became quite obvious that we had much to learn, outside of class as well as in, not the least of which was passing from class to class quietly. This took much practice. Any worries that we may have had about being ignored by upperclassmen were banished as we practiced our "tiptoe" marches around the auditorium. All eyes seemed to be on us.

Other changes we remember--we had a representative in the May Court each year, we joined clubs and organizations, we took part in all sports, we entered contests, we sold magazines, and we gave parties after the games.

As juniors we received the coveted PTA Scholarship award for having the largest percentage of students on the honor roll, received our rings, put on a play to earn money for our treasury, and had the fun of planning and sharing in the Junior-Senior prom and banquet.

Our senior year has kept us occupied with selling refreshments at the football games, giving the class play and other fund-raising projects. The trip to New York, the prom, the banquet, and finally graduation highlight this, our last year at New Kent High School. As a class, we have worked hard, and we have had good times. "These are happy moments to remember."

*for the future***

TODAY there are more than 100,000 different uses for paper . . . and the search for new uses never ends. That is why this fast-growing industry is now the fifth largest in the country . . . and why it needs trained researchers and technicians for future growth.

Our company, a pioneer kraft manufacturer, joins with other mills in sponsoring college scholarships in paper technology. It also offers scholarships for study in a subject of the student's choice. For information, write: Public Relations Department —
